

**Instructions:** The Kreepster® can be used in the automotive, farm equipment, marine, airline, computer hardware and other industries, whenever work is required to be done from a supine position.

Sit all the way down at the bottom of the Kreepster® and adjust your body until it is in a comfortable position.

To engage the brakes, push down on the brake wheel assembly lock, as illustrated. To release the brakes, pull up.

**Engage brake**

To prevent unwanted movement, keep the brakes in the locked position while working.

The Kreepster® should only be used on a level surface; the braking mechanism is not intended for use on an incline and does not prevent wheel-carrier rotation.

**Headrest Adjustment:**

To raise the headrest, pull up on the headrest as shown:

To lower the headrest, pull release lever up as shown:

**Raise headrest**

**Release headrest**
